## **Caregiving contract renewed with Sittercity**

The U.S. Department of Defense has renewed its contract with Sittercity, a website that assists families in finding caregivers, to fund free memberships for military families, including active duty, reservists and guardsmen.

The program provides free access to caregiver profiles, which include background checks, pictures, references and reviews, according to a news release. Memberships can be activated at [Sittercity.com/dod](http://Sittercity.com/dod).
